

**Children's Response Center** serves children who are victims of sexual assault and traumatic stress. We are available to provide training to administrators and staff regarding the organizational prevention of child sexual abuse, an issue that can affect any organization or family. We are available to train at your site and will try to accommodate your needs. This training is designed for 90 minutes.

## How Can Our Organization Help to Prevent Sexual Abuse? *A Risk Management and Public Health Approach*

This training will cover the ways that organizations and schools can help prevent child sexual abuse and other forms of victimization on a macro level. You will have a chance to assess your own program and make a plan for improvement. We will discuss the many ways that you can help prevent problems, by creating specific policies, procedures, and expectations of behavior. The topics include:

- Screening procedures
- Monitoring behavior
- Boundaries
- Responding to concerns
- Reporting incidents
- Improving Training
